The proposed sale and upgrade will allow Iraq to operate and exercise a more lethal and survivable M1A1M tank for the protection of critical infrastructure. Iraq will have no difficulty absorbing these tanks into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be General Dynamics Land Systems Division of Sterling Heights, Michigan; Honeywell International, and General Motors Allison Transmission Division of Detroit, Michigan. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of approximately 8 U.S. Government and 35 contractor representatives to Iraq for up to four years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law; it does not mean that the sale has been concluded.
